

February 2024

Dear Dental Healthcare Provider

New SADA tariff codes

You may recall that we have previously communicated in September 2023 that we have accepted and provided benefits for 53 of the new South African Dental Association (SADA) codes. This letter therefore serves as a friendly reminder that we accept these codes, and we encourage you to use them, where appropriate.

Some of these codes are replacements for existing codes or offer clarity on their use. Currently, we still accept both the old and new codes from the list of codes sent in the communication of September 2023. However, we will only accept the new codes later in the year and therefore urge you to start using the new codes exclusively.

These are examples of which codes are being replaced with new ones:

Old code	New code
8570 and 8371/8372/8373/8381/8382/8383	8519
8570 and 8374/8384	8520
8570 and 8409/8405	8521
8570 and 8443/8448	8522
8570 and 8415/8420	8523
8560	8527/8528
8447 on an implant	8573/8574

We trust that this information will prove valuable as we navigate these modifications together and will ensure you receive sufficient notice before we effect this change.

New SADA tariff codes accepted by Momentum Health Solutions

Please view the detailed list of [new SADA tariff codes accepted by Momentum Health Solutions](#).

See the [communication](#) sent in September 2023 with further details and which contains the full list of changes.

Should you have any queries in this regard, please feel free to contact the relevant medical scheme/health insurance product directly.

Kind regards

Dental Provider Management
